

Intensive
Therapeutics INC.

Ready, Set, Ride

Ready, Set, Ride is a program designed for children with special needs, ages 5 and above, who have had difficulty learning to ride a 2-wheeler. It is an interactive group class that provides the targeted training required to successfully ride a 2-wheeler.

During this 6-week program, Scott Matthews, of Intensive Therapeutics, will work with your child using a step-by-step approach to teach them how to successfully ride a 2-wheeler. This program has had great success, with most children riding successfully by the end of the program. Class sizes are limited to 4 children.

Ready, Set, Ride requires a 6-week commitment to support the learning process. Practicing key techniques between classes is greatly encouraged.

Note: All participants need to be pre-screened by Intensive Therapeutics (complimentary screening) to ensure that your child has the behaviors necessary to participate in this group setting (OK with wearing a helmet, etc). All children need to have an appropriately sized bike and a properly fitting safety helmet.

Autism Family Tours with Brianna is subsidizing this program and encourages families with children to join their "riding" club which is currently being formed.

Available Sessions:

Session #1 - Saturday mornings: Jan. 16, 23, 30, Feb. 6, 20, 27

Session #2 – Saturday mornings: Mar. 6, 13, 20, 27, Apr. 10, 17
